Are you trying to become pregnant? Yes / No

Are you nursing? Yes / No

Did you get hyperpigmentation or pregnancy mask during your pregnancy? Yes / No

Are you menopausal? Yes / No

When was the last day of your last menstrual period? _____

Smoking can cause intense contractions of the vessels which can leads to a decreased building of petechial. Therefore it would be good to avoid smoking at least three hours before the treatment.

CLARIFICATION AND INFORMED CONSENT

I understand that the fine needles induce the production of new body's own collagen. Therefore the needles penetrate the epidermis (top layer of the skin) and cause micro injuries. Due to the wound healing process a lot of different healing factors are released in the skin. This leads to formation of collage- and elastin fibres under the skin surface. This process will take place during 12-16 Weeks after the treatment. For an optimal result more than 3-6 treatment are necessary depending on the condition being treated. I understand that the treatment can have the following **side effects**: Redness and swelling: During the first days after the treatment redness and swelling can occur. This is because the needle penetration does force micro lesions which will disappear during the healing process. The wounds will be closed very quickly and about three hours after the treatment an appropriate makeup can be used. **Keloid**: If you have the tendency to form keloid scars, the micro lesions which are caused during the micro-needling can also lead to keloids. **Hyperpigmentation**: It is very rare but possible that hyperpigmentation occurs in the treated skin area, e.g. after excessive sun exposure. A sun protection factor of 30+ can prevent this. Herpes simplex: If you already suffered from herpes simples, the micro-needling treatment can force it once more. A premedication can prevent this. Furthermore Hematomata (bruises), Inflammation, Itching and moderate pain can occur after the treatment. I understand that it is important to **keep out of the sun** after the treatment to avoid hyperpigmentation (also no solarium). If I stay outdoors during sunny weather it is recommended to use sun protection with at least **SPF 30**.

I understand that BEAUTILASE will use/ and or disclose my personal health information for the sole purpose of carrying out treatment, obtaining payment, evaluating the quality of services provided and any administrative operations.

I hereby releases, BEAUTILASE from any liability arising out of the services associated with the above treatment. I certify that the preceding medical, personal, and skin history are true and correct. I am aware of the above stated BEAUTILASE policies and will abide by them. I am aware that it is my responsibility to inform BEAUTILASE of any medical changes, health changes, skincare regime, new or changed medications, or recent sun exposure as this will alter the results of my treatment. A current medical history is essential for the caregiver to execute the appropriate treatment procedures. .

My expectations are realistic and I understand that the results are not guaranteed and that for maximum results, more than one application may be required. The rate of improvement of my skin depends on my age, skin type and condition, degree of sun/environmental damage, pigmentation levels, or acne condition.

I understand that this procedure is expected to make the skin feel uncomfortable while being applied, but agree to inform the skin professional immediately if I have concerns or am overly uncomfortable during treatment or after I return home.

I agree that I am willing to follow recommendations by my therapist for home care. I will be responsible for following home regimens that can minimize or eliminate possible negative reactions, including recognizing the importance of adhering to a sunscreen and avoiding the sun/tanning booths and extreme weather conditions. I agree to use a moisturizer specifically recommended by my therapist and I acknowledge that I have been informed of the possible negative reactions (intense erythema, welts, scabs) and the expected sequence of the healing process (dryness, irritation, redness, and peeling of the skin). In the event that I may have additional questions or concerns regarding my treatment or suggested home product/post-treatment care, I will consult my therapist immediately.

I UNDERSTAND AND ACKNOWLEDGE THAT PAYMENTS FOR THE ABOVE TREATMENTS ARE NON REFUNDABLE AND NON EXCHANGEABLE. THIS INCLUDES ANY PACKAGE DEALS WE OFFER.
